

Dear Customer

6th May 2009

Re: Notification of Reinforcement Steel Price Increase – 5th May 2009

We have been advised by our supplying mill of a further increase in the price of reinforcing products as of Tuesday, 5th May 2009.

The international price of scrap has risen substantially for May purchases and as a direct result international steel producers have no alternative but to pass on this increase to its down stream customers.

Commodity prices are once again on the increase and future price rises in the short term are likely, therefore caution should be reflected in your tender prices.

You will be contacted directly by our Account Managers to negotiate any increase that may be applicable for specific contracts you may have with us.

Should you have any questions regarding the above then please do not hesitate to contact me directly.

Further details can be obtained by accessing our website at www.expressreinforcements.co.uk

Yours faithfully

Andy Lodge
Managing Director
